Glossary

Acorn Hills

Apr 01 2024 - May 01 2024

Name	Description	Section
Acquisition	The Acquisition section tells you where your visitors originated from, such as search engines, social networks or website referrals.	Overview
Average Position	The average ranking of your website URLs for the query or queries.	Search Console
Average Purchase Revenue	The average purchase revenue over the selected time frame.	E-commerce
Average Purchase Revenue Per User	The sum of the purchase revenue per user.	E-commerce
Average Session duration	total duration of all sessions (in seconds) / number of sessions. Individual session duration is calculated differently depending on whether there are engagement hits on the last page of a session.	Overview
Average Time on Page	Average time on page is simply the average amount of time all users spend on a single page.	Traffic Quality
Bounce Rate	The percentage of sessions that were not engaged sessions. Bounce rate is the inverse of engagement rate.	Traffic Quality
Click	When someone clicks your ad, like on the blue headline or phone number of a text ad, Google Ads counts that as a click.	Google Ads
Click Through Rate	CTR is the number of clicks that your ad receives divided by the number of times your ad is shown: clicks ÷ impressions = CTR.	Search Console
Content Grouping	Content Grouping lets you group content into a logical structure that reflects how you think about your site or app, and then view and compare aggregated metrics by group name in addition to being able to drill down to the individual URL, page title, or screen name.	Users & Behaviour

Name	Description	Section
Conversion	A conversion is reported whenever a user completes a goal or makes a purchase during a session	E-commerce
Cost per Click (CPC)	Cost-per-click (CPC) bidding means that you pay for each click on your ads.	Google Ads
Device Breakdown	Device category allows you to view performance based on the different devices people are using to experience your website.	Overview
Engagement Rate	Engagement rate and bounce rate are important metrics in Google Analytics that enable you to measure and analyze user engagement with your website.	Overview
Event Count	The number of times users triggered an event.	Technology
Event Value	The sum of all value parameters supplied with an event. You can use this context-sensitive metric to capture data that's important to you.	Events
Events	Events are user interactions with content that can be measured independently from a web-page or screen load.	Events
Events Per Session	The average number of events per session.	Traffic Quality
First Time Purchasers	The number of users who made their first purchase in the selected time frame.	Google Ads
GA Key Indicators	A Google Analytics KPI is an objectively measurable performance indicator used to monitor, analyze and optimize user behaviors on websites.	Overview

Name	Description	Section
Google Ads Ad Network Type	The location where your ad was shown (google.com, search partners, display network) that led to a conversion event.	Google Ads
Google Ads Query	The search query that led to a conversion event.	Google Ads
Impression	Each time your ad appears on Google or the Google Network, it's counted as one impression.	Google Ads
Interests	Google Analytics tells you your users' interests on other parts of the internet. This will help you identify a more specific target audience, cross or upselling opportunities, better blog content ideas, and more.	Demographics
Item List Name	A name that you specify for a list of items (e.g., products you sell). A name for a list of products. For example, you can set a name of 'Related Products' for an item list in a related-products section.	E-commerce
